Self-drilling Screws

- ***Metal to Metal***
- ***Metal to Timber***

Self-drilling Screws – M2M fastening (Screws for metal)

SDS-1.1.HEW-1016
SDS-1.2.HEW-1019
SDS-1.3.HEW-1025

Valley / Cladding fastening

- Carbon steel screws for fastening steel sheets to steel substrates
- For light duty application

Specification:

- Gauge #10
- #10-16x16
- #10-16x19
- #10-16x25

| d (mm) | TPI | Length | |
|-----------|-----|--------|--------|
| | | (mm) | (inch) |
| 4.8 | 16 | 16 | 5/8" |
| | | 19 | 3/4" |
| | | 25 | 1" |

Adapter in use: Magnetic Hex Socket (5/16')

Washer: E.P.D.M

Self-drilling Screws – M2M fastening (Screws for metal)

SDS-4.1.HEW-1519.R

Stitching Screws

- Carbon steel screws for fastening steel sheets to steel substrates
- For light duty application such as fastening panel to panel side lap, panel to end lap light gauge, lightweight steel, ...

Specification:

- Gauge #15
#15-15x19

| d (mm) | TPI | Length | |

Self-drilling Screws – M2M fastening (Screws for metal)

SDS-10.1.HEW-1238.B

Thick steel fastening

- Carbon steel screws for fastening cladding to thick steel which thick max 12mm
- For heavy duty application

Specification:

- Gauge #12
#12-24x38
- Head type:
 - Hex Washer Flange
 - Wafer
